1. PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

2. PRODUCT

Product Name	3Y Puttable Floating Rate Certificates in EUR on 3 Months EURIBOR
Identifier/ISIN	XS2023674299
Product Manufacturer and Guarantor	Cirdan Capital Management (Cirdan)
PRIIP Manufacturer Website	www.cirdancapital.com
Competent Authority	Cirdan is authorised and regulated by the UK Financial Conduct Authority
Issuer	SmartETN p.l.c. (SmartETN)
Telephone	+44 (0)203 097 0280
Date	03-Jul-19

The information in this Key Information Document is correct as of 08 July 2019.

What is this product?

Type: Senior, Unsecured, Bearer, Medium Term Certificates (English law governed).

Objectives: The product is designed to provide a return in the form of a cash payment on the **Settlement Date** plus quarterly interest payments that will depend upon the level of the **Underlying Rate**. Terms in **bold** are described in more detail below.

You have the right, but not the obligation, to exercise the **Investor Put Option** on any **Put Option Exercise Date**. If you exercise the **Investor Put Option**, the product will terminate early and you will receive the **Final Settlement Amount** plus any accrued interest for the period on the **Put Option Exercise Date**.

If the product does not terminate early, the **Final Settlement Amount** you will receive on the **Settlement Date** will be a cash amount equal to the **Denomination** plus any accrued interest for the period.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day. Any adjustments may affect the return, if any, you receive. The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to changes in law, the **Underlying Rate**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product.

Interest: This product pays a quarterly interest on 11 October, 11 January, 11 April and 11 July of each year starting from (and including) 11 October 2019 to (and including) 11 July 2022. The interest payment you will receive will be calculated as (1) the Denomination, multiplied by (2) the quarterly equivalent rate of the sum of the 3 months EURIBOR rate on the **Interest Determination Date** and a rate of 3.25%.

Denomination	1,000 EUR	Reference Source	Cirdan Capital Management Ltd
ISIN	XS2023674299	Underlying Rate	3 Months EURIBOR
Issue Date	11-Jul-19	Product currency	Euro (EUR)
Exchange	Frankfurt Stock Exchange	Maturity Date	11-Jul-22
Put Option Exercise Date	11 July 2020 or 11 July 2021.	Settlement Date	The 2nd business day following the Maturity Date
Interest Determination Date	The second day on which the TARGET2 System is open prior to the start of each Interest Period	Final Settlement Amount	1,000 EUR

Refer to the terms and conditions of the product for a full list of the corresponding information set out in the table above.

Intended Retail Investor: The product is intended to be offered to retail investors who fulfill all of the criteria below:

1. they are sophisticated and experienced in trading complex securities;
2. they are looking for an investment opportunity that reflects an expectation that the underlying rate will increase over time;
3. they are able to bear a total loss of the amount invested; and
4. they have a medium-term investment horizon.

3. WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN?

Risk & Reward Profile

! The risk indicator assumes you keep the product one year. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You might not be able to cash in early or you might have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Any additional return depends on future market performance and is uncertain. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

Investment - EUR 10,000

Scenario		Recommended holding period 1 year
Stressed Scenario	What you might get back after costs Average return each year %	EUR 10,000.00 0.00%
Unfavourable Scenario	What you might get back after costs Average return each year %	EUR 10,260.00 2.60%
Moderate Scenario	What you might get back after costs Average return each year %	EUR 10,289.00 2.89%
Favourable Scenario	What you might get back after costs Average return each year %	EUR 10,305.00 3.05%

This table shows the money you could get back over the next year, under different scenarios, assuming that you invest EUR 10,000.00. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

4. WHAT HAPPENS IF CIRDAN IS UNABLE TO PAY OUT?

You are exposed to the risk that Cirdan might be unable to fulfil its obligations in respect of the product e.g. in the event of insolvency or an administrative order. If Cirdan is unable to pay out, you may lose all of your investment. The product is not a deposit and as such is not covered by any deposit protection scheme.

5. WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off and ongoing costs. The amounts shown here are the cumulative costs of the product itself, for one holding period. They include potential early exit penalties. The figures assume you invest EUR 10,000.00. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios EUR 10,000	If you cash in after 1 Year (Recommended Holding Period)
Total cost	EUR 0.00
Impact on return (RIY) per year	0.00%

Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year.

One-off costs	Entry costs	0.00%	The impact of costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.00%	The impact of the costs that we take each year for managing your investments.

6. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 1 Year

If you wish to exit the product early, the price at which you are able to sell the product may be less than the amount you invested and you may make a loss. In addition, there may be no trading market for the product meaning you are unable to find a buyer. Under normal market circumstances or if a trading market is established investors might be able to cash in early. However, SmartETN does not guarantee that investors will be able to cash in early without suffering a loss. The price at which you are able to sell the product may be impacted by market factors including, but not limited to, movements in interest rates, interest rate volatility and the financial condition of Cirdan. If Cirdan purchases the product, Cirdan may deduct costs from the price it is willing to pay you (including, but not limited to costs relating to its hedging arrangements).

7. HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of Cirdan can be submitted to Cirdan under the following address: 5th Floor, 1 Knightsbridge Green, London SW1X 7NE United Kingdom or at www.cirdancapital.com or to complaints@cirdancapital.com

8. OTHER RELEVANT INFORMATION

The full terms and conditions of the product are set out in Prospectus relating to the issue of the product as supplemented and amended from time to time. The Prospectus can be found here: www.cirdancapital.com
